More about my background.

Education

Computer Engineer

2018 - 2023

Camilo Cienfuegos University, Matanzas, Cuba

I gained the foundations of my knowledge. I developed my programming logic skills, object-oriented programming, data structure, computer architecture, design patterns, development methodologies, among others. I got the notions in languages such as C#, Python, 8086 assembler.

English level B2

2018 - 2019

Camilo Cienfuegos University of Matanzas Language School

I developed my English language skills, obtaining the B2 level certificate.

Work experience

Web developer

2020 - Present

Experimental Station of Pastures and Forages Indio Hatuey, Matanzas, Cuba.

At the station I put into practice the knowledge I had acquired throughout my

career and gained some new ones. Thanks to this I was able to develop my diploma work, which consists of a management system for your recruitment process, developed in native code, using HTML5, CSS3, JS, Bootsrap, jQuery for the Front and PHP, Maria DB for the Back.

I am also the designer and developer of his web library site. Developed with similar technologies. Visitar Biblioteca André Voisin 🔗

IT Specialist

January 2023 - Present

Municipal Directorate of Urban Planning and Development, Perico, Matanzas, Cuba

Among the functions I perform are:

- Updates of applications, antivirus and software in general.
- Hardware maintenance and upgrades.
- Resource inventories (hardware and software)
- Staff training on different applications.
